Keep Looking! Your Provision for the Future is There! (We are Thawing!)

Saturday, February 5, 2011

Dear Seeking Saints:

We have begun our ***Center for Advancement Class*** on **"Releasing the Seer Gift and Multiplying in Your Field!"** Although the roads are still slick, our core team is here and we are excited about the revelation the Lord will release today. This will be a wonderful time when we activate our vision so that we are equipped to see the resources in our "field" and gain strategies to see multiplication. Robert Heidler will be sharing on *"I See an Almond Tree! The Call to Watch!"* Norma and Martin Sarvis from Israel are with us, and Norma has brought mud from Israel to anoint our eyes so we can see. Barbie Breathitt will be sharing from *Dream Encounters*. John Price will speak on *"The Seer Gift."* I will be sharing on *"The Laws of Multiplication! You Can See Your Provision!"*

Remember, today's Center for Advancement webcast will be available ALL MONTH. So if you cannot join us this morning and afternoon, you can still purchase your e-ticket and sign on the next several weeks. The cost to webcast is $20 per person.

This afternoon the temperatures should rise above freezing, so we are looking for the roads to improve by this evening. Everyone is welcome to join us tonight at 7 PM as we ***CELEBRATE FIRSTFRUITS FOR ADAR.*** This will be a time to declare that your fear will turn into laughter! You can join us onsite or by webcast. If you cannot join us tonight, this webcast will be available as a free replay through next Saturday night, February 12.

SUNDAY MORNING! This whole weekend we are concentrating on how to see your provision, and I will continue that tomorrow morning in the first service. In the second service ***Ray Hughes*** will be leading us into the sound of NOW!
